

I continue to be humbled and in awe of this community and the love, hope and strength we share together...on behalf of the Ocean board of trustees and the entire community, I would like to read the following:

When we acknowledge and appreciate what we are grateful for, we cast that goodness everywhere.

The more we share our affirmation, love, and support of those that have given, the more happiness, love and support will shimmer upon on all of us

Every day at Ocean Charter, we have generous, abundant givers, who the entire community is very appreciative of, and who make this community a special place

And it is with that same generosity we acknowledge the many people who made sacrifices and were committed to our Charter's Renewal; including the administrators, staff, teachers, parents, students, board of directors, playa vista elementary school parents, friends of our school, and even those at LAUSD, who all did their part in securing our charter renewal.

Therefore, today, as always, and for everything that is Ocean Charter, we acknowledge and send out our appreciation of those who gave so much of themselves to help us reach our successful Charter renewal, one that was not only a success, but a great success, and will set us on our path of continued successes for 5 more years and beyond .

The board of trustees is very grateful to all those in the community who make this Waldorf inspired charter school what it is today
